HDPE Corrosion Resistant Subsea Pipe Protection for UK Windfarm

Cocoon and Shroud®

Wave Capture Hub

Subsea Market...

Tel: +44 (0)1752 581200  Email: sales@pipexpx.com  www.pipexpx.com
Specialist design and fabrication of a HDPE pipe protection. This corrosion resistant cover will protect the power supply cable which runs from the offshore wind farm to the onshore substation.

Advantages of Pipex px®
Subsea Products

- Light weight typically 1/3 the weight of comparable steel
- Delivered to site in prefabricated units minimising installation schedules
- Highly corrosion resistant
- Minimal maintenance required
- High strength and impact resistant
- Cost effective solutions

Pipex px® Specialist Services

- Advanced Manufacturing
- Design, Engineering and Assurance Services
- Project Management
- Site Surveys
- Site Installation and Field Service
- Research and Development
- Equipment Hire
- Training
